Software Developer

Experience

Full-stack Developer

Matrix • Kfar Saba, IL

12/2023 - Present

Primarily focused on backend (80%-20%). Designed, developed, and documented features for the "Tafnit" ERP platform, using the IRIS framework and Caché ObjectScript, with occasional use of JavaScript for UI enhancements. Built and maintained internal systems including CRM, inventory, and import management. Collaborated directly with clients to gather requirements and deliver tailored solutions. Integrated third-party APIs and handled data exchange using JSON, contributing to a scalable and maintainable architecture.

Help Desk Administrator, Shila

Clalit IT & Digital Division • Tel-Aviv, IL

07/2023 - 12/2023

Provided day-to-day support and rapid response to service incidents, diagnosing and resolving a wide range of technical IT issues with elevated permissions across organizational systems and platforms such as Microsoft Office, Priority ERP, and others. Delivered end-to-end technical solutions for end users, covering all aspects of IT infrastructure, including Windows operating systems, printers, security systems, and more, ensuring minimal downtime and optimal system performance.

Temporary - Software Developer

Madey Vered - Gaon Tech Group • Or Yehuda, IL

02/2022 - 08/2022

Developed Windows applications using C# and MSSQL, created automation scripts with Batch files, and managed documentation and organization through JIRA and GitHub. Worked within Agile methodologies, overseeing sprints and assigning tickets to team members to ensure smooth project execution.

Security Officer

EL-AL (Canada) • Toronto, ON

07/2018 - 03/2019

Carrying out security checks for passengers and their luggage.

Officer

I.D.F

12/2012 - 01/2018

Led data analysis and information retrieval under high-pressure conditions using specialized military software. Produced and delivered presentations, reports, and policy documents to support strategic decision-making. Managed and mentored a team of 10 soldiers, ensuring operational efficiency and accountability. Oversaw sector-wide IT infrastructure, including software and system installations, computerization processes, and logistical coordination.

Education
